Subject index

Absorption
Absorption of materials by or through the living skin, 103
Percutaneous absorption of urea, 251
Acne; Topical bioavailability of benzoyl peroxide, 61
Anti-inflammatory activity; Evaluation of the anti-inflammatory activity of biolysat *hafnia®, in vivo* in man, 149
Anti-seborrheic activity; Activity and mechanism of sebathionine (DCI) on sebum formation, 29
Anti-wrinkle product; Evaluation of anti-wrinkle effects on humans, 117
Benzoyl peroxide; Topical bioavailability of benzoyl peroxide, 61

Book Reviews
Colours for Cosmetics. (2nd Edn) By the Deutsche Forschungsgemeinschaft. Commission des Colourants. Ed. Verlag Chemie Gmbh, D 6940 Weinheim-Brd, 99
Complete Hairdressing Science. O.F.G. Kilgour and M. McGarry. Heinemann, London 1984, 99
Diseases of the Nails and their Management. R. Baran and R.P.R. Dawber (eds). Blackwell Scientific Publications, Oxford 1984, 143
Handbook of U.S. colorants for Foods, Drugs and Cosmetics. (2nd edn) Daniel M. Marmion, Ed., J. Wiley and Sons, 1984, 99
Clinical tests; Comparison of selection procedures for the formation of homogeneous groups in clinical tests of dental care agents, 265
Collagen hydrolysates; Substantivity to hair and skin of ^{125}I-labelled collagen hydrolysates under application simulating conditions, 71
Colours; Colour extension properties of individual pigments and effects on shades of foundation in cake form, 15

Cosmetics
An *in vivo* assessment of the biochemical properties of human skin modifications under the influence of cosmetic products, 51
Histamine determination in tears as an index of safety in use of cosmetic products, 1
Physical attractiveness, cosmetic use and self-perception in the elderly, 85
Role of Proteins in Cosmetics, 41
Cosmetic materials; Photostability of cosmetic materials, 165
Dental care agents; Comparison of selection procedures for the formation of homogeneous groups in clinical tests of dental care agents, 265
Elderly; Physical attractiveness, cosmetic use and self-perception in the elderly, 85
Emulsions;
Application of emulsion theory to complex and real systems, 195
Use of micro-emulsions as vehicles for the nucleophilic reagents in cosmetic formulations, 127
Fatty acid esters; Antibacterial properties of soap containing some fatty acid esters, 9
Foundation in cake form; Colour extension properties of individual pigments and effects on shades in foundation cake form, 15
Gel; Application of an experimental method to the study of a ternary diagram of a gel, 219
Germicidal activity; Antibacterial properties of soap containing some fatty acid esters, 9
Hair; Use of micro-emulsions as vehicles for nucleophilic reagents in cosmetic formulations, 127
HLB; Application of emulsion theory to complex and real systems, 195
IFSCC; Award 1984, 39
IJCS
Publications prize 1983, 37
1984, 247
Inflammation; Evaluation of the anti-inflammatory activity of biolysat *hafnia,® in vivo* in man, 149
Medal lecture, 1985; Cosmetics – a practical approach to safety-in-use, 181
Mutagenicity; Mutagenicity evaluation of nitroanilines and nitroaminophenols in *Salmonella typhimurium*, 277
p-Phenylene diamine; Studies on the dermal toxicity of p-phenylene diamine, 213
Preservatives; Preservative stability and preservative systems, 157
Profilometry; Evaluation of anti- wrinkle effects in humans, 117
Product-container compatability; Fundamentals of stability testing, 291
Proteins; Role of proteins in cosmetics, 41

Publication prize
1983, 37
1984, 247

Safety
Cosmetics – a practical approach to safety-in-use, 181
Histamine determination in tears as an index of safety in use of cosmetic products, 1
Sebathionine (DCI); Activity and mechanism of sebathionine (DCI) on sebum formation, 29
Shampoos; The dissolution rate of zinc pyrithione, 153

Shampoo additives; Substantivity to hair and skin of ^{125}I-labelled collagen hydrolysates under application simulating conditions, 71

Skin
Absorption of materials by or through the skin, 103
A study of the penetration of five novel synthetic steroids through hairless mouse skin *in vitro*, 175

Stability
Application of emulsion theory to complex and real systems, 195
Fundamentals of stability testing, 291
Photostability of cosmetic materials, 165
Preservative stability and preservative systems, 157

Stratum Corneum; An *in vivo* assessment of the biomechanical properties of human skin modifications under the influence of cosmetic products, 51

Structure/activity relationships; Mutagenicity evaluation of nitroanilines and nitroaminophenols in *Salmonella typhimurium*, 277

Sunscreening; Sun protection factors, 235

Ternary mixture; Application of an experimental method to the study of a ternary diagram of a gel, 219

Topical corticosteroids; A study of the penetration of five novel synthetic steroids through hairless mouse skin *in vitro*, 175

Toxicity; Studies on the dermal toxicity of p-phenylene diamine, 213

Ultra violet light; Sun protection factors, 235

Urea; Percutaneous absorption of urea, 251

Wrinkles; Evaluation of anti-wrinkle effects on humans, 117

Zinc pyrithione; The dissolution rate of zinc pyrithione, 153
